While many luxury SUVs offer seven seats as an afterthought, the

LWB Range Rover provides an unrivalled travel experience for adults in every row, featuring heated seating all the way to the back and four-zone climate control as standard. Despite its extended profile, the P530 SE LWB remains remarkably agile thanks to standard All-Wheel Steering, which gives this flagship a turning circle tighter than many small sedans. The 2026 model year continues to refine the digital sanctuary of the cabin, anchored by the stunning 13.1-inch floating curved glass interface and a Meridian™ 3D Surround Sound System. Whether you're utilizing the 7,716 lb towing capacity for a cross-country journey or enjoying the whisper-quiet isolation of its Electronic Air Suspension, the 7-seat P530 SE LWB is the definitive choice for the Canadian family that refuses to compromise between supercar performance and executive-class versatility.
